

Useful Tips

Tips on how to take care of your Nursery Goods

- Never leave babies unattended in Baby Walkers, Bouncing Cradles, Baby Swings etc.
- Never leave items such as these on a raised surface such as a kitchen worktop.
- You must always use a safety harness in items such as Highchairs, Prams, Pushchairs etc.
- Do not allow any person to operate your nursery equipment without proper instruction.
- Cleveleys Nursery recommends items such as Prams, Pushchairs and Buggies must be serviced regularly if you expect the product to perform without any problems.
- Only use the pushchair for the purpose it was made for. (Example single pushchair for one child and not two)..
- Nuts and bolts fitted to your nursery equipment will need to be checked on a regular basis.
- Prams, Pushchairs and Buggies need to be lubricated on a regular basis with a suitable lubricant to keep them operating trouble and squeak free.
- Do not hang shopping from the handles of your buggy as this may cause it to tip up.
- Tandem Pushchairs need to be lifted up kerbs or steps backward to prevent possible strain on the product.
- Before folding your wheeled item ensure the seat unit is in the correct position, failure to do may result in damage.
- Be very careful when placing your nursery items in the car as fabrics can easily tear.
- Do not leave plastic items such as sun canopies in direct sun light in your car as the heat will cause the frame to bend.
- Do not wash items such as seat units if they are PVC backed as they will retain the water and will not dry.
- Be careful when using any item with a painted frame as paint can easily mark.
if you have a chrome/metal chassis you must keep it clean preventing any possible rusting.
- Cosmetics such as sun tan cream will discolour fabrics
- Hubcaps can come off if the pushchair knocks the curb we recommend that you check these on a regular basis preventing purchasing spares.
- Cots, Cots Beds and Travel Cot are made for one child not two.
- If your Pram, Pushchair has more than 4 wheels do not expect them to all to touch the floor until the baby gains weight.
- Cleveleys Nursery recommends that the mattress be regular rotated to prevent wear and dipping.

Car Seats:

Since September 18th 2006 all children below 135cm / 4ft 5 ins (and younger than 12 years old) are required by law to travel in an appropriate child restraint, with a fixed penalty of £30 for parents who don't comply. Car Seats must NOT be

fitted into any car if there is an airbag fitted where the seat is to be placed.

- Read your instructions before using the seat.

- Your child will learn to release the buckle of its car seat. This is not a fault, the buckle cannot be made harder to undo and it may not be covered as in an overturned car you would not be able to undo the buckle to release your child.

- Do not remove any warning stickers from your car seat.

Accessories / Fabric:

- Fabric may well differ in shade, they will also fade at a different rate especially if they are not used together, i.e. Sun Canopies, Foot Muffs and the fabric of pushchairs and car seats

- Follow the washing instructions carefully if there are no washing instructions then presume the item may not be washed.

- Do not wash items such as seat units if they are PVC backed as they will retain the water and will not dry.

- Always use a non-bio liquid rather than washing powder.

- It is not always possible for us to supply accessories for the items we sell.

- If an item has been discontinued or is out of warranty we may not be able to supply parts.

Accidental Damage:

- If you have damaged any of your nursery items you may be able to make a claim against your household contents insurance Check your insurance policy for further details.
